PROFESSIONAL SUMMARY

Results-driven Data Operations Lead with experience overseeing data integrity, departmental workflows, and DOL/IRS (ERISA) compliance readiness. Possesses a strong foundation in Python, machine learning fundamentals, and data annotation. Currently pursuing a Bachelor's degree in Data Analytics at Miami Dade College. Looking to collaborate with talented professionals, engage in productive discussions on best practices, and expertise needed for a career in Data Analytics and AI

SKILLS

- **Programming Languages & Tools:** Python, R (basic), C#, TensorFlow
- **Data & Analytics:** Data integrity, Excel (advanced formulas, lookups, pivots), Google Data Analytics Certificate, SQL, BigQuery (introductory), data visualization, Apache Spark, Power BI, Tableau, Big Data, statistics
- **AI & Cloud Technologies:** Microsoft Copilot, Azure DevOps (exposure), NLP, computer vision
- **Compliance & Quality:** ERISA, DOL/IRS standards, Form 5500 data readiness, audit-ready documentation
- **Leadership & Operations:** Team leadership, workflow design, training, process improvement, accountability

EDUCATION

Miami Dade College, Miami FL

- B.S. in Data Analytics – Expected April 2027
- AA in Computer Information Systems
- Certificates: Google Data Analytics Certificate (includes introductory BigQuery) • Artificial Intelligence Practitioner • Business Industry Operations

WORK EXPERIENCE

Data Operations Lead / Third-Party Administrator (TPA)

Pension Services | Miami, FL | [July 2018] – Present

- **Data Verification & Compliance Assurance:** Oversee the collection, validation, and reconciliation of participant and employer data to meet DOL/IRS (ERISA) standards. Deliver complete, audit-ready datasets to the actuary and plan administrator for compliance testing and valuation
- **Workflow & Team Leadership:** Manage departmental operations, task schedules, and deadlines to ensure accurate, on-time data processing. Train and mentor staff, maintain SOPs, and implement process improvements that enhance efficiency, accountability, and data quality
- **Stakeholder Collaboration:** Serve as the primary point of contact for plan sponsors, actuaries, and internal departments (Benefits, HR, Accounting) to resolve census gaps, confirm data mappings, and ensure smooth, traceable data flow across systems
- **Process & Review Modernization:** Apply data-analytics concepts and Excel-based automation techniques to strengthen data verification procedures, reduce rework, and improve the overall quality and consistency of data review

PROJECTS

- **City of Miami Public Benefits AI Chatbot – Data Analyst Intern**
 - Supported the development of an AI-powered chatbot for the City of Miami Office of Community Development. Organized source documents, created Q&A content, and used AI-assisted tools to refine retrieval logic, testing, and troubleshooting. Improved answer relevance through semantic similarity, keyword overlap, exact-question matching, and safeguards that reduced unsupported responses
- **Department Task Completion & Tax Submission**
 - Analyzed internal processing timelines and client response patterns to identify delays in plan completion and tax submission readiness. Found that delays were often linked to limited client response and confusion around the census completion process. Supported the implementation of instructional videos to guide clients through census submission, improve response quality, and reduce processing delays
